The Santa Barbara-Ventura County Dental Society provides referrals to American Dental Association, dental-board licensed dentists in Santa Barbara & Ventura counties.

Locally, member dentists work together to make a difference in our community through programs such as Dentist-With-A-Heart, Free School Screenings, Give Kids A Smile and many, many other programs to promote oral health to your friends and neighbors.

SBVCDS members are members of the California Dental Association and the American Dental Association. They agree to abide by the ADA Code of Ethics, and we stand by the quality of their work. Almost 80% of the dentists in our community are members.

LIKE US ON FACEBOOK!

What's the easiest, most fun way to stay on the cutting edge of what's going on in dentistry and stay current with what your colleagues are doing?

We will be having regular drawings throughout the year from among our friends to win various fun prizes. And... at the end of the year, one of you will win \$500!

PRESIDENT'S MESSAGE

Sara Cizek, DDS
President

And just like that, the end of the year is here! While the day-to-day had a familiar grind, and we didn't seem to DO much, so many good things happened in 2021! We pretty much stayed open. Our profession, more or less, weathered an airborne pandemic. Vaccines were available to us and we were roughly third in line. Our little corner of California was blessed with an easier (though not easy) round of Covid than so many parts of Cali, the US, and the world.

Our social wellbeing greatly improved in 2021. Even the more cautious types were able to safely see family and friends. The random shortages of toilet paper and peanut butter were so last year. Lysol wipes are again available at Costco. We had access to year-round outdoor activities and embarrassingly good weather.

This isn't to say that 2021 didn't have its share of ongoing challenges. Between supply costs that remain too high, insurance reimbursements that remain too low, and maintaining our safety protocols, we continue to have plenty of recurring concerns. A common issue affecting our members is the staffing shortage. Whether staff members have to be out to care for family members, to isolate for 10 days post-exposure, or they're out on a more permanent basis, maintaining a qualified and professional team has proven difficult. Hopefully, some of the resources offered by SBVCDS can help. To help find staff, you can review resumes and post job openings on our website. To help train staff, we offer CPR and Radiology certifications. Currently, we are looking into different curricula, both to train potential new employees, and to help cross-train existing personnel to diversify their skill sets (unclear where we will be on this project at the time of publication). Hopefully, by approaching our staffing issues from many angles, solutions can be found to ensure viable productivity in our offices.

As the end of the year approaches, it would be remiss to overlook the ever-present challenges presented by the holiday season. On the outside, the holidays are a time of light and joy, good tidings, warm hearts, and a sense of togetherness. Perhaps because of all of these things, the end of the year is a notoriously loaded time for many people. Between wanting to please everyone, overspending, saying yes to too many events (or no to all the events because of Covid concerns), and ALL THE

FOOD, the end of the year is wrought with potential pitfalls. I personally was surprised (and annoyed) that I gained the same holiday weight in 2020 as every other year. It turns out stress-eating (stress-drinking?) had the same effect on my waistline as the boozy holiday parties and office treats.

I would encourage you to look ahead to the upcoming season and spot your potential pitfalls while there is time to establish a plan of action. Does the office get overwhelmed with people trying to use their benefits before the year ends? Send an email or letter out reminding patients to schedule that crown now, while they have their pick of times, to maximize their benefits. Do the darker days make you crave comfort food? Find some easy recipes for healthy and filling soups to keep you warm as the daylight grows shorter. Do your plans currently include seeing your cousin who likes to goad everyone into heated political discussions? Plan now how you're going to avoid him or avoid taking the bait.

While you're looking ahead, I would also encourage you to look out for those friends and neighbors who might not have the emotional support systems in place to weather the holidays. For them the holidays may be a time of loneliness, doubt, or sadness. If there is a way to safely include a bonus person in your holiday plans, you are always encouraged to reach out and extend some holiday cheer. As a bonus, everyone else seems to be on much better behavior when there's an actual guest present!

Otherwise, I hope this season finds you well and cared-for. I hope your homes are filled with joy. And I hope you take a moment to savor all the things for which you have to be thankful, now, and in the upcoming year.

Collegially yours,

A handwritten signature in black ink that reads "Sara Cizek". The signature is fluid and cursive, with a large, stylized 'S'.

Sara Cizek, DDS
President 2021 SBVCDS

This quarter's challenge: Make some fun plans that aren't contingent on Covid restrictions!

TRUSTEE'S REPORT

October 2021

Dear Members,

I hope all of you were able to attend the CDA Presents either in person or virtually. CDA has been working hard to continue to provide its members with the services they have come to expect during this difficult time, including quality continuing education.

As CDA continues to evaluate the financial impact of the pandemic, the board has approved the continued suspension of funding for the council on peer review program, judicial council, and council on membership, and will reconsider the suspension again next year.

The CDA Nominating Committee nominated the following 2022 officers for election by the CDA House of Delegates: Dr. John Blake (president-elect), Dr. Carliza Marcos (vice president), Dr. Max Martinez (secretary) and Dr. Steven Kend (treasurer). In addition, the CDA Board of Trustees selected Dr. Karin Irani as ADA 13th district trustee for selection by the house of delegates and election by the 2022 ADA House of Delegates.

The 2021 CDA House of Delegates will once again consider the board composition proposal. With the potential new structure, CDA is seeking candidates to fill nine at-large director positions. These applications will be reviewed by the Committee on Volunteer Placement for placement purposes contingent upon the actions of the House of Delegates. The deadline to apply for these positions is October 15, 2021

Medicare – Democrats in the United States House and Senate are working to pass a \$3.5T spending package, which is likely to be scaled down, and which proposes to add supplemental benefits to Medicare, including dental, vision, and hearing. As the details are being negotiated, CDA's Medicare workgroup is meeting to develop member education about and CDA's response to the Congressional discussions.

This is my last year to represent SBVCDS as the Trustee. I thank all of you for the opportunity of have served in this position and congratulate Lisa Beck-Uhl, DDS on her election to this position.

Stay well,

*Lyndon
Lambeth*

Lyndon Lambeth, DDS
Trustee, SBVCDS

WHAT IS A TRUSTEE?

A Trustee is a member of the SBVCDS Board, elected by our members, who serves on the CDA Board of Trustees. While that position has fiduciary responsibility to CDA, it also represents our unique needs to the state.

As with many things, the pandemic has accelerated change in how things are run in Society, and a possible change to the CDA Board of Trustee composition is currently to be voted on at the House of Delegates. We will keep you updated.

Whatever happens, we have been so well-served and are lucky to have had the Trustees we have sent to Sacramento in the past and we were lucky to have Dr. Lyndon Lambeth serving these last 6 years (two-terms).

In times such as these, we have been lucky to have such a steadfast, kind person to help us through it all.

Thank you for all you have done, Dr. Lambeth!

WHO IS PCIHIPAA AND WHY ARE THEY CALLING ME?

Has your office received a call from them, saying they are working with the Dental Society? If so, learn about our program with them.

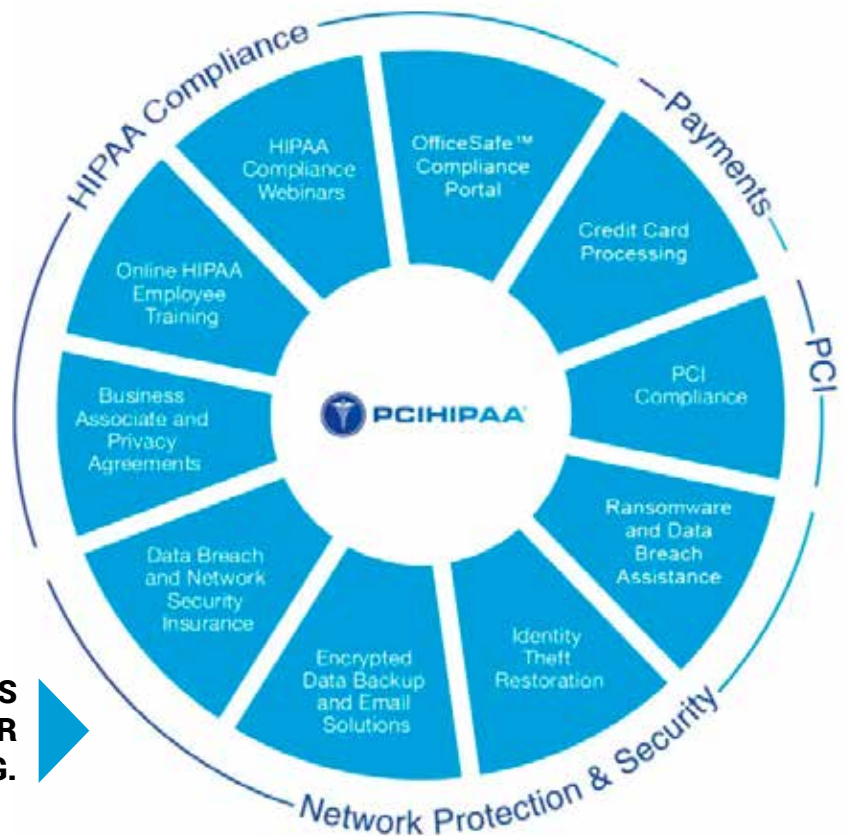

We are aware that most small/midsized offices likely have some vulnerabilities that they may not even be aware of. In addition, we know that staying on top of all the mandatory regulations and requirements is not the most fun part of dentistry, so it may fall through the cracks and leave you vulnerable.

PCIHIPAA is a one-stop solution OPTION that we wanted to make sure was available to our members, as it is to many dental societies throughout the state. **PCIHIPAA** is an A+ rated BBB accredited business and their offerings to dentists has been vetted by independent attorneys.

Of course, you are always free to choose to address each of the various compliance areas in whatever way makes sense for your office and you do not need to hire their services.

So why not take advantage of the following resources **PCIHIPAA** is currently offering our members **completely free of charge!**

PCI SECURES VULNERABILITIES IN ALL AREAS TO PROTECT YOUR OFFICE FROM HACKING.

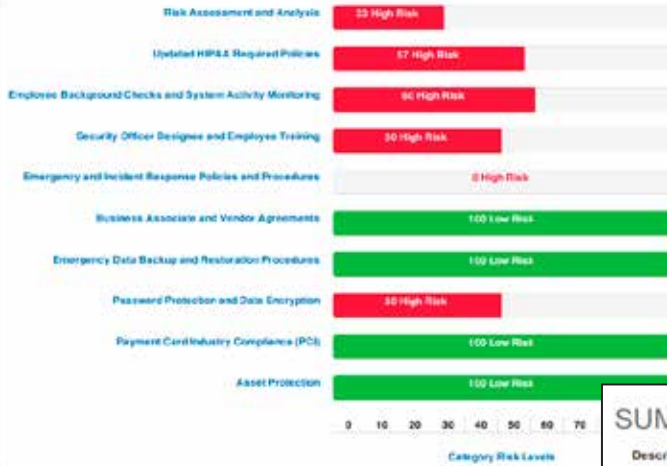

2601 Ocean Park Blvd #303, Santa Monica, CA 90405

Overall Risk Score **60/100** Overall Risk Level **High**

Compliance Benchmarks

THIS IS A SAMPLE OF THE KIND OF RESULTS YOU WILL RECEIVE AFTER DOING THE FREE ASSESSMENT.

YOU'LL GET AN INSIDE LOOK AT THE ASSESSMENT DETAILS IN THE ASSOCIATE SUMMARY.

SUMMARY CATEGORIES & QUESTIONS

Description	Status
Risk Assessment and Analysis §164.308(a)(1) requires that you periodically take a thorough Risk Assessment and address key vulnerabilities in your practice.	High Risk
Updated HIPAA Required Policies §164.308(a)(1) requires updated policies such as Acceptable Use, Sanctions, and Security Policies.	High Risk
Employee Background Checks and System Activity Monitoring §164.308(a)(2)(ii)(B) requires employees to be adequately screened before being allowed access to sensitive data.	High Risk
Security Officer Designee and Employee Training §164.308(a)(2) requires that the practice designate a Security Officer and that employees are trained on protecting ePHI.	High Risk
Emergency and Incident Response Policies and Procedures §164.308(a)(6)(ii) requires every practice to create Incident and Emergency Response plans so the practice is prepared in case of emergency.	High Risk
Business Associate and Vendor Agreements §164.308(b)(1) requires all covered entities that handle ePHI enter into a Business Associate Agreement. Vendors also need to execute agreements with the practice.	Low Risk
Emergency Data Backup and Restoration Procedures §164.312(a)(2)(i) requires that the practice implement emergency data back and exact data restoration procedures.	Low Risk
Password Protection and Data Encryption §164.312 requires the security and protection of system passwords and sensitive data is protected in an encrypted format.	High Risk

THE HIPAA CHECKLIST

Administrative Safeguards

- Conduct an accurate and thorough assessment of risks and vulnerabilities of ePHI
- Develop Sanction, Acceptable Use and Workstation Use Policies and Procedures
- Develop a policy to review workstation activity
- Document policies and procedures for workforce members who work with ePHI
- Implement and document Security and Awareness Training
- Prepare an Emergency and Incident Response Plan in case of an emergency
- Prepare a Data Backup and Restoration Plan in case of a ransomware attack
- Execute Business Associate Agreements and keep a log of all Business Associates
- Assign a HIPAA Officer with defined roles and responsibilities
- Assign and document workstation access rights for each employee
- Document your HIPAA compliance progress and all safeguards that you've implemented

Physical Safeguards

- Implement policies and procedures for disposal of ePHI
- Assign a unique user ID to every workforce member
- Implement procedures to control and validate a person's access to the facility and/or workstations
- Properly safeguard all laptops and mobile devices

HIPAA Privacy Rule

- Maintain an updated Notice of Privacy Practices (NPP)
- Share NPP with patients upon their 1st visit and obtain Acknowledgment of Receipt
- Display NPP on websites and in visible areas of your practice
- Obtain written Authorization to Release PHI from patients
- Obtain written request for Patient Access to PHI
- Obtain written authorization from patients to use PHI for marketing or testimonials

YOU WILL ALSO RECEIVE A HANDY CHECKLIST OF THINGS TO CONSIDER IMPLEMENTING BASED ON THE ASSESSMENT.

HIPAA PROTECTS PATIENTS. WE PROTECT YOU.

NEW MEMBER BENEFIT FOR YOU AND YOUR OFFICE MANAGER!

Staff who work for SBVCDs members get a SPECIAL DISCOUNTED RATE!

If you have a staff member certified to take X-Rays, there's a good chance you have this man to thank!

Dr. Perry has been a valued member of SBVCDS for over twenty-five years, and has been the vitally important volunteer X-Ray assessor for more than half of those years!

Almost ONE THOUSAND students have earned their state certified Radiology Certificates through our dental society program – each of them possible because of Dr. Perry.

When asked why he chose Ventura County as his location of practice, he shared, "I wanted to live in a small coastal community with all the water sports available." He continued commenting on his experience as a SBVCDS member stating, "It was a pleasure to be associated with my fellow colleagues and the dental society staff."

When we talk about "making a difference", we are talking about gentlemen like Dr. James Perry.

Please join us in thanking Dr. Perry for sharing his knowledge, generosity and commitment to the local community and dental professionals. We truly could not have done it without you!

UNIQUE CLINICAL & LAB SERVICES IN ORAL PATHOLOGY AND OROFACIAL PAIN

WE PROVIDE THE FOLLOWING SERVICES FOR YOUR PATIENTS:

- Clinical diagnosis and therapeutic management of oral mucosal lesions, such as chronic ulcers; vesiculobulous disorders; burning or dry mouth, etc
- Diagnosis of ambiguous white/red lesions (oral cancer/precancer) and clinical follow-up programs
- Microscopic diagnosis for the biopsies submitted by dentists
- Diagnosis and therapeutic treatment of neuropathic Pain and TMJ disorders
- Radiographic consultation of intrabony lesions
- Comprehensive care of prior/post radiotherapy for head/neck cancers

E-PRESCRIPTION REMINDER

The Dental Board of California is reminding prescribers of the upcoming e-prescribing requirements established by **ASSEMBLY BILL (AB) 2789** (Wood, 2018).

Beginning January 1, 2022, all prescriptions issued by a licensed healthcare practitioner to a California pharmacy must be submitted electronically.

Healthcare practitioners who fail to meet the requirements of **AB 2789**, may be subject to disciplinary action.

The law provides certain exemptions, including if transmission of the prescription is temporarily unavailable because of technological or electrical failure; if the prescription is dispensed by a pharmacy located outside California; or if the prescription is issued to a patient who has a terminal illness pursuant to Section **11159.2 OF THE HEALTH AND SAFETY CODE**. The complete list of exemptions is included within **BUSINESS AND PROFESSIONS CODE SECTION 688**.

Under this law, a healthcare practitioner who does not issue a controlled substance prescription as an electronic data transmission prescription due to technological or electrical failure shall document the reason in the patient's medical record as soon as practicable, and within 72 hours of the end of the technological or electrical failure.

Although prescriptions will be issued electronically, the Board recommends that all licensed prescribers have paper prescription forms available that meet the requirements of **AB 149** should a technological or electrical failure prevent a prescription from being issued electronically. A list of the approved security prescription printers is available on the **State Attorney General's website**.

Additional Resources:

- For information about the Drug Enforcement Administration's Electronic Prescriptions for Controlled Substances procedures, **click HERE**.

E-PRESCRIBING (GROAN)

By Dr. Suzanne Berger

IT'S CHANGE, IT'S PAINFUL,
IT COSTS MONEY, IT CHEWS UP TIME,

and It's finally registering in our brains that this e-prescribing mandate goes into effect in 3-ish months. According to my straw poll last week, very few of our colleagues have made this move. The rest are muttering about unfunded mandates, wondering why we can't charge the patient for this troublesome prescription, and are wholly desirous of sending the middle digit salute to Sacramento. Perhaps some are even hoping that the White Hats at CDA will pull off a last hour save. Sorry to say, this definitely can't happen. We're part of a national phase-in that's been growing around us for a few years. To see the big picture, check out "E-Prescribing Mandate Laws by State" online at [MDToolbox](#).

In case you were wondering, this new mandate grew from The Drug Crisis. E-prescribing is the brilliant strategy to control controlled substances. Then someone somewhere said, "What the heck, let's manage all prescription medications." So here we are, along with our physician colleagues, but not veterinarians. Go figure. The good news is that we won't be dealing with CURES forms any more. (Unless your internet goes down, then you may use them.)

Of course, the Dental Board "is unable to recommend or suggest what products or services will comply with the law," or even provide a standardized platform, which might have been helpful, so I did a little research for those of us who haven't started the process. Let us begin with the very popular FREE option, iPrescribe <https://www.iprescribe.com/>

This is an easy to use mobile App, except that "it sucks to set up," so you'll need to give yourself about an hour for the task. After that, scroll through the database and mark your most used prescriptions. There are plenty of options. A key feature is the ability to view all the patient's current medications through the patient database.

The downside to iPrescribe is the time-consuming manual entry of patient data (Name, address, phone#, DOB) and the manual transcribing of the prescription

into the patient's chart. Entering a patient's first prescription can take 5 to 7 minutes; but only 2 to 3 minutes for subsequent prescriptions. Staff members can get an account linked to the doctor's profile and send the prescription to a pending folder in the doctor's App for approval. The authentication process for controlled substances adds a few more steps to the process. Most pharmacies recognize the electronic prescription but Kaiser does not. Nonetheless, colleagues who use it say they like it a lot. This seems like a good product for those of us who don't write many prescriptions.

The not-free programs that integrate with practice software make the process much easier. Prices vary according to vendor, product, number of users and product features, e.g. some programs cost more to send prescriptions for controlled substances. Finding a program to integrate with one's practice software is straightforward because there aren't a lot of options and is as easy as online search for e-prescribe + the name of your practice software. My search yielded Henry Schein One e-prescribe, costing \$35/mo that integrates with Dentrax, Easy Dental, and Dentrax Enterprise. This search also yielded Allscript, at \$50/mo, which integrates with Dentrax. Both of these products were favored in online dental forums, along with e-Clinician for Patterson's Eaglesoft and Legacy for Open Dental. It's worth spending a little time online this way to investigate options and pricing before contacting your dental practice software company.

Last, for complete guidance, don't neglect to review the following important information at the CDA website:

1.) The June 3, 2021 article, "Electronic prescribing for controlled and uncontrolled substances becomes mandatory in California in January 2022" [CDA Article](#)

2.) Controlled Substance Prescribing and Dispensing PDF. [CDA PDF](#)

Think positive, test negative, and good luck!

THE TIME TO MAKE A DIFFERENCE HAS ARRIVED!

For over 50-years, members like you have made a remarkable impact on families throughout Santa Barbara and Ventura Counties. You've shaped smiles, changed lives, and forever made a difference to thousands of community members we've been able to reach through our many member-funded programs.

As California continues to move forward and rebuild after the height of the COVID-19 Pandemic, we are ready to give to our community again.

But we need your help.

The Santa Barbara-Ventura County Dental Care Foundation depends on the donations of members like you to provide support to our community. We leverage your donations and make sure to showcase the outstanding generosity of dentists through our publications and local news outlets.

With our ease of donating, the opportunity to make a difference is simple. Just return the Annual Smile Campaign form and have the peace of mind knowing that we'll be sure your funding benefits those most in need.

The Foundation Board of Directors will determine where the highest value of our dentists' donations lie, clinic workers will put those donations into action, and our staff will spread the word of the remarkable impact of our dentists!

Providing oral health services to those within our community is something we take great pride in, and partnering with members like you is what makes it possible.

You can make your tax-deductible donation by returning the form below to us, or simply call us at 805-648-7282.

Thank you in advance for your support!

The Time to Make a Difference Has Arrived!

*Your Santa Barbara-Ventura County
Dental Care Foundation Team*

TOGETHER WE CAN MAKE A DIFFERENCE IN OUR NEIGHBORS' LIVES!

HONORING OUR

Dedicated Foundation Volunteer

A Message to New Dentists from retiring Dr. Ordonez, who has generously served on the SBVCD CF Board and given much to our community!

Cecilia Ordonez

Dr. Ordonez earned her degree from the University of Florida and graduated with a degree in biology & chemistry before going forward to attend the UCLA Dental School and graduate in 1977. She spent some time practicing in Carmel before moving her main focus of practice to Santa Barbara, California.

When asked what inspired her career in Dentistry, she shared, "What inspired me to become a dentist was how Dentistry encompassed science, Art, psychology, engineering, medicine, and hands on application of these skills to patient care. My father was a dentist in Ecuador, South America who also inspired me to join this awesome profession.

Personal Statement:

When I first came to practice Dentistry in Santa Barbara there were no female dentists in the area with the exception of an occasional female dentist who was in and out of the area. Breaking the mold of entering Dentistry as a female in a male dominated field was quite a challenge at that time. Now there are quite a few females in all aspects of Dentistry. I have practiced Dentistry for the past 40 years in Santa Barbara. I started off by doing a lot of community service for the County Health Director, Dr. Larry Hart. I was very much involved in writing and implementing Senate Bill 111 In Santa Barbara county schools (fluoridation program).

I then went on to volunteer for the Santa Barbara Dental Society and taught several classes on dental assisting at the County Health Department and continue to inspire young people to enter the profession by providing introductory classes on dental assisting.

I am now retired spending half of my time in West Virginia and the rest of my time in Santa Barbara. Dentistry is a career that will enable your dreams and bring long term financial stability to your life.

To the dentist out there who is burnt out and ready to quit because of COVID or other reasons, don't give up but rather take a mental break (vacation) to recharge, and get in study clubs to lite that fire that got you into dentistry to begin with!

*My Best,
Dr. Cecilia Ordonez*

NEW MEMBERS

Edward J. Baum

.....

Dr. Baum earned his degree from the Herman Ostrow School of Dentistry of USC. He is currently practicing in both Oxnard and Westwood.

Juliana L. Cheng

.....

Dr. Cheng earned her degree from the University of Illinois at Chicago. She is currently practicing in both Newbury Park and Thousand Oaks.

Why She Loves Dentistry: "My love for orthodontics and dentistry stems from the lasting relationships my team and I build with our patients, their families, and each other. I love the collaborative team effort that goes into creating healthy and beautiful smiles as well as boosts in confidence."

Daniel Demaray

.....

Dr. Demaray earned his degree from the Emory Dental School in 1976 and established a practice in Fremont, California where he practiced for 28-years before establishing his practice in El Dorado Hills. After selling that practice he continued working throughout Northern California before relocating to Moorpark.

Why He Loves Dentistry: . I love and loved dentistry and was privileged to have had a career in dentistry at a great time. We are currently in an apartment hoping the housing prices stabilize in the next year. We love being back in SoCal!

Jennifer Vitez

.....

Dr. Vitez earned her degree from Boston University Henry Goldman School of Dental Medicine 2009. She is currently practicing at Pathway Dental Group located in Santa Barbara & Lompoc.

Why She Loves Dentistry: "There's so much to love! Dentistry offers people the ability to get their smile, confidence, speech and digestive health back with results that can be instant or the same day.

I enjoy how much craft and artistry our care involves to serve our patients. Operating with nifty tools, materials and technology that constantly evolves is an added bonus!"

Sheila L. Fathi

Dr. Fathi earned her degree from the University of Southern California of Dentistry. She is currently practicing in Thousand Oaks, where she focuses on *"Neuromuscular and Modern Dentistry"*.

Joseph Mann

Dr. Mann earned his degree from Brigham Young University, and then University of Pacific for Dental School. He was born and raised in Santa Barbara.

Why He Loves Dentistry: "I love Dentistry because I get to work with and meet so many amazing people! I also love that it gives me the opportunity to grow and learn every day."

Mary Mazurek

Dr. Mazurek earned her degree from UNLV School of Dental Medicine 2020 and continued on to complete a year GPR at the Sepulveda VA in Los Angeles.

Why She Loves Dentistry: "Dentistry has always been a big part of my life. I grew up spending my afternoons in my mom's office and quickly learned to love the family-like atmosphere of a general dental practice. I enjoy the wide array of procedures I can perform as a dentist and the fact that I am constantly being challenged."

Stephanie L. Sue

Dr. Sue earned her degree from Roseman Health University in South Jordan, Utah and completed her residency at Ann and Robert H. Lurie Children's Hospital in Chicago. She is currently practicing at Newbury Park Dentistry for Children.

Why She Loves Dentistry: "I love dentistry because I enjoy hearing stories from my patients and the community as well as how artistic is can be!"

Deborah L. Van

Dr. Van earned her degree from the UCLA School of Dentistry. She is currently practicing at SmileWell Dental Group.

Why She Loves Dentistry: "I love dentistry because I enjoy inspiring patients to take care of their teeth and be proud of their smiles."

Goutam Krish

Dr. Krish earned his degree from the UCSF School of Dentistry.

Alvin D. Sitompul

Dr. Sitompul earned his degree from Loma Linda University School of Dentistry.

John Huntsinger

Dr. Huntsinger earned his degree from the the UCLA School of Dentistry. He is currently practicing in Camarillo.

Rudolph D. Lang

Dr. Lang earned his degree from the Herman Ostrow School of Dentistry of USC.

Rym C. Partridge

Dr. Partridge earned his degree from the UCSF School of Dentistry.

SBVCDS recognizes members' life transitions, including joining us, marriages, birth announcements, additional degrees obtained, awards received, retirement and upon the unfortunate event of passing, their memorial.

If you know a member who should be mentioned in our Notes Column, please notify Linda Lacunza at execdirector@sbvcds.org or call 805-648-7282.

*We were unable to obtain photos or statements of all new members, but we welcome them to SBVC Dental Society!

A MOMENT OF THANKS

CELEBRATING OUR RETIRING MEMBERS SINCE JANUARY 2020

While we are always excited to welcome new SBVCDS members, we would be remiss if we did not take a moment to honor and celebrate those of our members who have dedicated decades of thier extraordinary talent and service to the community members of Santa Barbara and Ventura Counties.

As they move forward in their retirement, we would like to thank each of them for their contributions that have made it possible for SBVCDS to serve as a support for our dental community.

We would like to thank;

Tim Buto
Karin Hansen
Steven Kaminsky

Kent Hollenback
Allen Parigian
Allan Powell

Alvin Neuenschwander

We wish you the very best of days ahead and are truly honored to have your support as a Santa Barbara-Ventura County Dental Society member!

Return this survey to us by fax at 805-648-5154, or better yet, complete this online at <https://bit.ly/SBVCDSMemberPoll>

THANK YOU!

Social Meetings Poll:

Please help us make a decision for future planning by participating in this poll!

How often did you attend Society CEs before the pandemic (in-person)?

- Never
- 1-3x/year
- 3 or more a year

Our in-person CE meetings were 8 hours, 7 CE credits. Would you prefer more, shorter, offerings?

- All-Day is good for me
- 3-4 hours at most
- 1-1.5 hour lunch meetings work best

We had our all-day in-person meetings on Fridays. Does that day work for you? Is traffic a potential issue for you? Would Wednesdays work?

- Fridays work
- Wednesdays would work
- Lunchtime any day
- Dinner any day

Do CE Courses online work for you? Should the Society put more effort into offering them, even after in-person is allowed?

- Yes, and working with CDA's offerings is good
- Yes, and I would like the Society to also host them
- Yes, and I am content getting them from other sources
- No, I do not like online courses

Have you ever attended our annual social events?

- Yes
- No

Would you like to see continued Annual Social Events (when deemed safe)?

- Yes
- No

We also have small, no-host, regional gatherings of dentists and friends. Would you like to see more of these?

- Yes
- No

If so, would you like to have these be around an activity? (i.e., painting class, surf lessons, trip to the zoo, etc.)

- Yes, sounds fun.
- No, just a Happy Hour is fine.
- N/A

Do you have any comments or suggestions for us? We would love to hear your feedback! All input appreciated!

We are also proud to offer the option of an in-office, or outside on-location portrait session (at an incredibly discounted rate!)

Hey!

Did your license expire between March 31, 2020, and Sept. 30, 2021? Don't forget the waiver only gave you until March 28, 2022, to meet the license renewal requirements!

The Department of Consumer Affairs on July 26 [issued a waiver](#) that gives all California-licensed dental professionals whose active licenses expire between March 31, 2020, and Sept. 30, 2021, until Mar. 28, 2022, to meet license renewal requirements.

The most recent order rescinds the DCA's previous five continuing education waiver extensions, meaning that licensees now have additional time to complete the continuing education courses and take and pass the examinations required for license renewal. C.E. units completed under this waiver may only count toward one renewal period.

Licensees must still apply for their license renewal and pay the renewal fees by the respective due dates. The waivers only grant an extension to complete the required C.E.

All six C.E. waivers are a result of CDA's continuous advocacy efforts to support dental professionals affected by the COVID-19 pandemic. CDA will continue to advocate for additional extensions should pandemic mitigation efforts impact licensees beyond January 2022.

Gov. Gavin Newsom's March 2020 state-of-emergency order granted the Department of Consumer Affairs the authority to waive statutory or regulatory professional licensing requirements as part of the state's response to the COVID-19 pandemic.

**MEMBERS GET ALL
THREE COURSES
FOR JUST \$21**

California Dental Practice Act, Infection Control, and OSHA

Get your required courses done as a LIVE CE, done ONLINE through SBVCDS!

All three courses are yours for **only \$21 total**. (Price includes all three, not offered individually)

HIPAA Training (1.5 CE Credits)

Wednesday, January 5
6pm-7:30pm

Speaker: Jeff Broudy

Speaker Bio: Actively involved in building startups and leading sales and marketing teams in a variety of industries over the past 30 years, Jeff previously served as Director of Sales & Marketing at Intuit and was the VP of Sales and Marketing at Total Merchant Services. Now as CEO of PCIHIPAA he focuses on providing HIPAA, OSHA, and PCI compliance and data security solutions to small- and mid-sized medical and dental practices.

California Dental Practice Act (2 CE Credits)

Wednesday, January 12
6pm-8pm

Speaker: Nancy Dewhirst BS, RSH

Speaker Bio: Listed as one of the nation's "Leaders in CE", presents over 80 seminars yearly, Nancy is a member of the California Dental Association Speakers Bureau and is a licensed continuing education provider in California. Nancy's career includes 20 years of private clinical practice along with 27 years as an educator.

Infection Control (2 CE Credits)

Wednesday, January 19
6pm-8pm

Speaker: Nancy Dewhirst BS, RSH

Speaker Bio: Listed as one of the nation's "Leaders in CE", presents over 80 seminars yearly, Nancy is a member of the California Dental Association Speakers Bureau and is a licensed continuing education provider in California. Nancy's career includes 20 years of private clinical practice along with 27 years as an educator.

PROFESSIONAL LIABILITY

Dentistry isn't like anything else.

Better protection is built just for dentists.

The Dentists Insurance Company was founded by dentists, to protect only dentists, and is led by your peers.

In fact, TDIC's **Professional Liability** coverage follows the scope of practice, which means you're protected for the administration of the COVID-19 vaccine.*

See more ways you benefit from exceptional protection at every stage of practice:

- One-on-one guidance by Risk Management analysts
- In-house claims team and razor-sharp legal team
- Higher limits for specialties with higher exposures

Plus, get premium discounts for bundling your policies or completing our current risk management seminar.

Talk to an agent or apply today at tdicinsurance.com/PL.

Protecting dentists. It's all we do.®

Selling Dental Practices in Santa Barbara & Ventura Counties for Over 30 Years!

(Your Neighborhood Broker / Resident of Ventura County)

You live in one of the Greatest Areas in the Country -- Your Sale Price Should Reflect That

A sample of our current listings:

Santa Barbara: Motivated retiree with over 25+ yrs Goodwill. Private Practice. Most Specialty Treatment Referred Out. Busy Hygiene Program. Seller works PT schedule. Super steady patient base & revenues of \$30k/mo Low overhead costs so ideal for first time buyer or merger

Camarillo: Disabled dentist now looking to sell his absentee run practice. No patient attrition concerns here as the office has been operated by associates for past 2 years. 3 very clean ops with room for additional. Shopping Center visibility. Low overhead. Priced to sell right away!

Ventura: Easy-going Retiree with over 30 years of Goodwill. Busy office (4 hygiene days per week) with large potential for significant growth and high net revenues. If looking for bread-n-butter seller that refers out specialty work, has a large patient pool, and controlled expenses - this is the one. Projecting income of \$600k for right buyer.

Moorpark: Shopping center location. Modern equipment and design. Exposure. Ideal for 1st time buyer looking for low overhead, controlled expenses and growth. Priced under \$150k for quick transaction. Seller will take active role in transitioning of patients

Santa Barbara: Old-school conservative retiree that does basic c/b and operative only with established practice accepting selected PPOs and Delta only. No endo, perio, ortho, OS or implants. Solid 3 days of hygiene. Predictable annual revenues & low overhead costs. Seller wants to go fishing -- buy it at a discount, and land a great catch !
